### Curriculum:

At CCP we follow an emergent curriculum. While many of our sensory and art projects will follow the seasons and holidays/special events during the year, a lot of the rest of the curriculum will be determined by the children's interests. As they exhibit interest and curiosity about the world around them, we will tailor our curriculum to match those interests. It is our belief that when children take an active part in their own learning and cognitive experiences, those experiences will be that much richer and will be retained and used as building blocks as they move on to the next area of interest. Please be advised that special events may be added, and dates may change. Unforeseen circumstances could also arise. We will attempt to give plenty of notice of any changes. Please read your News Letter and look for notices posted in the office and put in your child's cubby! Thank You.
